

Patriot 1-Hour Fire and Impact Rated Safes

Fire Protection for vital documents and irreplaceable valuables!

Fire safes are built specifically to protect documents and valuables during one of the most devastating disasters that can strike a home or business. The Patriot Vault Fire Safe combines strict UL fire and impact standards and American Manufacturing to create one of the most affordable high quality safes on the market.

1-Hour UL Class 350 Fire and Impact Test

Patriot Vault is built according to UL Class 350 standards to withstand fires up to 1700 degrees for 1 hour, while ensuring that the internal safe temperature does not exceed 350 Degrees. Additionally, Patriot Vault has passed the rigorous UL Fire Impact test that simulates a safe dropping 2 stories after being exposed to extreme high heat conditions for 30 minutes.

The Patriot Vault is proudly made in the USA. You can rest assured that your safe is constructed by highly skilled craftsmen with the highest quality materials available. Each safe is equipped with a US made, UL Group 2 combination lock.

Features: Constructed of thick outer and inner steel plates, 3 way boltwork system that includes six massive 1" diameter solid chrome steel bolts. Heavy duty solid steel block hinges provide additional security and smooth operation.

Includes bolt down hardware and 1 adjustable shelf.

Model	Inside H X W X D	Outside H X W X D	Cubic Feet	Weight
PV-1512	15 x 12 x 11 ½	21 x 17 x 17 ½	1.2	150
PV-1713	17 x 13 x 15	23 x 18 x 23 ½	2.0	205
PV-2015	20 x 15 x 15	26 x 20 x 21	2.6	250

Add 1" for feet

Add 1 ¾" for Handle and Hinge
